RESPONSIBILITY

Concepts by Braida Srl SB è un'azienda specializzata **nell'industrializzazione e produzione di sedute** e complementi d'arredo su disegno e/o commessa per il settore alberghiero e navale.

La Mission di Concepts by Braida è di tradurre in realtà l'idea d'arredo dei clienti, rimanendo fedele ai disegni degli architetti e designers e rispettando i termini concordati.

Concepts by Braida è la prima Società Benefit in Italia nel settore della produzione di sedute e come tale è impegnata in un progetto di sostenibilità nel mondo dell'arredamento: proprio da questi comuni valori, nasce la collaborazione con lo Studio Simone Micheli Architectural Hero e la prima collezione di sedute denominata "Good".

Concepts by Braida is a company specialised in the **industrialisation and production of bespoke seating** and furniture complements for the hotel and cruise ship sectors.

Concepts by Braida's Mission is turning the customer's furnishing idea into reality, while being faithful to the architects and designers drawings and while respecting the agreed terms.

Concepts by Braida is the first Benefit company in the chair production's sector in Italy, therefore it is committed to a project which brings sustainability to the furniture world: it is from these common values that the collaboration with Studio Simone Micheli Architectural Hero and the first collection of seating called "Good" was born.
